PRODUCT DESCRIPTION

The Postmark 3070 Letter Opening Machine is a heavy duty milling cutter letter opener that handles up to 40,000 envelopes per hour. The 3070 letter opener has the added bonus of a reverse flow conveyor with a 500 envelope capacity. Opens envelopes of all types and sizes. The milling cutter technology protects the contents from being cut or damaged as it removes 0 to 3 mm of the envelope edge. This creates a soft, feathered edge opening which prevents paper cuts and gives easy access to contents. Any excess material falls directly into the waste bin. Its solid metal construction and three motors ensure a better performance and longer life. It can feed up to 300 envelopes at a time. Its digital counter tracks and counts envelope opening volume. Opens envelopes up to .33 thick.

PRODUCT SPECIFICATION

Speed	40000 envelopes/hr
Max. Envelope Thickness	.33 in.
Voltage	115 volts

DIMENSIONS

Weight:	209.00 lbs.
Width:	30.00 inches
Length:	44.00 inches
Height:	45.00 inches
